RESOLUTION NO. C-17-04

interpretation of Section 18.06.040(G) of the
City of Half Moon Bay's Zoning Code
Maximum Building Envelope – PDP-20-04

WHEREAS, Section 18.06.040(G) states the requirements for the Maximum Building Envelope for all residential development within any residential zone; and

WHEREAS, the City Council reviewed the language of Section 18.06.040(G) of the Zoning Code to clarify the beginning point of the Maximum Building Envelope and clarify what constitutes a gable and dormer as they apply to Section 18.06.040(G)(1) of the Zoning Code; and

WHEREAS, the City Council considered all written and oral testimony presented for their consideration; and

WHEREAS, the City Council conducted a discussion at a public hearing to clarify what constitutes a gable and dormer and the interpretation of the beginning point of the Maximum Building Envelope on June 1, 2004, at which time all those desiring to be heard on the matter were given an opportunity to be heard; and

WHEREAS, the Planning Commission held public hearings on subject and forwarded their recommendation to the City Council in the form of resolution P-12-04; and

NOW, THEREFORE, BE IT RESOLVED that, based upon the written and oral testimony included in this discussion, the City Council adopts the interpretation that the Maximum Building Envelope begins at a plane in the airspace 10 feet above the side property lines and in the airspace 16 feet above the front and rear setback lines. This interpretation does not permit the Maximum Building Envelope to begin on the ground. The City Council further determines that a dormer is a structure projecting from a sloping roof usually housing a window or ventilating louver and that the exterior face of the dormer is recessed from the first floor sheer wall. The Council determines that a gable, which is permitted to project outside of the Maximum Building Envelope, is the triangular wall section formed by the two slopes of a roof above the eaves. It is resolved that any portion of a sheer wall that is crowned by a gable but is below the eaves is not permitted to project outside of the Maximum Building Envelope. This resolution shall not be construed to permit projections outside of the Maximum Building Envelope more than allowed by Section 18.06.040(G)(1) of the Zoning Code.

PASSED AND ADOPTED as a Resolution of the City of Half Moon Bay at a regular City Council meeting thereof held on June 1, 2004.
